BOWLER'S METHOD,

FEW improvements in Agriculture have excited so much interest as Bommer's Method of making Manures. Hundreds of testimonials from Farmers who have adopted this system prove beyond all controversy, that no one need remain destitute of that supply of manure his wants require. An individual right with one copy of the Method is $5 and no economist can hesitate to pay so trifling a sum when he is made sensible it will enable him to double the products of his Farm with comparatively small efforts. Town or County rights are estimated according to their agricultural importance. An individual or a company desirous of purchasing one or more Towns or a County not disposed of are respectfully invited to make an early application. An individual right with a copy of the Method will be sent to any section of the State free of postage.

COSTIVENESS HUMORS RHEUMATISM

THIS valuable medicine is used FOUR times as much now as ever. This is because that not only PHYSICIANS, but the public know it by experience, to be FAR the BEST, and therefore give it their united preference to any other preparation or form of Sarsaparilla.

Kelley & Co.'s Sarsaparilla,

is so strong and so certain to do good, but more than all is known to have performed so many astonishing cures of DYSPEPSIA—of SCROFULA and of every form of RUN-DOWN CONSTITUTION that it has in spite of every opposition which self interest or malice could devise won its way to the favor of PHYSICIANS and the public in SIX STATES of the UNION, in a very short time.

RUST PROOF IRON,

FOR

ROOFING WINDOW SHUTTERS, &c.

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing, as they do the strength and lightness of iron without its liability to rust, having now been tested several years both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate Iron Zinc &c or any other metal now used for roofing and consequently form a much better and tighter roof, requiring far less recent repair, whilst the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which iron thus protected can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES to their Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing but about one half as much as copper and possessing equal durability with that metal.

Having lately erected works in a city for the purpose of galvanizing Nails Spikes Bolts Wire &c they will be able to furnish any article which may be required. A supply of Plates (manufactured in Europe) constantly on hand from 16 to 32 wire guage. GEO ... MOREWOOD & CO.

Nos ... and 16 Beaver st, New York

The Patent Right for this article has been secured for the United States as well as Great Britain, and other European countries, and all legal measures will be taken to prevent any infringement by importation or otherwise.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded free of expense and risk to their owners and with all possible despatch. The subscriber will prepare Caveats Specifications Assignments and all the necessary Papers and Drawings will make researches into American and Foreign works for establishing the validity or utility of inventions and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. The experience of fifteen years practice—an extensive collection of rare works documents, decisions &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established and to which daily additions are being made together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment.

FRIDAY, OCTOBER 8, 1847.

FAIR OF THE East Glenburn Farmers' Club.

On Wednesday last, the East Glenburn Farmers' Club held their annual Cattle Fair and exhibition of domestic manufactures

The day was delightfully clear, pleasant and warm The members of the Club were out in full numbers, with their families and their flocks and herds, their farm wagons and their implements of agriculture and specimens of their production, from the field, the garden, the orchard the household and the barn hold It was a great show, a grand display of agricultural power and skill, and evinced a state of great improvement It revealed a strong faith in the great art of farming, and an assurance that well directed efforts for improvement in the various departments of this oldest and most important of arts, are sure in the end to return a full compensation.

The change which has been wrought within a few years in the territory occupied by this Club, and the improvements which have resulted, furnish the strongest argument in favor of the principle of voluntary association for self and mutual improvement The organization and maintenance of the Farmers Club have been worth more to East Glenburn than a gift of five thousand dollars, without the influence which this Club has exerted, because this influence has not only caused a wise and far reaching system of improved culture to be adopted and better plans to be laid, and a broader faith and a higher appreciation of the farming art to be entertained and cherished, but has gone farther and poured its hallowing and vivifying stream upon social life, and touched with its animating fingers individual mind and quickened it to a clearer apprehension of its power and capacity and nobleness—and diffused a gentle dew over the heart, increasing the sphere of its love and bringing it to see duty and good and progress in a purer life in the most common every day labors and in encourse and affairs of life

But we have not space now to follow out or illustrate these matters which so deeply affect the intelligence, the virtue and the social happiness of the community and must return to the subject more immediately in hand—the Fair

There were a large number of persons present at the exhibition, from this city and from the neighboring towns and among them several veteran workers in the County Agricultural Society who came to see what sort of a show a small Club with in the limits of some 2500 acres, could get up They were well satisfied, and not a little surprised

A large field was appropriated for the purpose—along upon one side were tables spread, on which were piled many beautiful specimens of needle work—some ornamental embroidery in the form of lamp mats book marks work bags &c There were also specimens of substantial home made carpets flannels, shawls under garments, hose and the like, with butter and cheese from the dairies Here too were displayed a multitude of beautiful flowers, a large collection of the dahlia family, these flowers were from the farm of Mr Moses Young and brought by that enthusiastic and accomplished cultivator, Mr John Emerson a deaf mute Here also were a great variety of specimens of vegetables, and of large size, good shape, and great perfection

The show of fruit was very fine No better specimens of apples can be found anywhere than were here exhibited, we mean of course of those varieties which succeed well here, the Blue Pearmain the Belle Fleur, the Russet and several other kinds And here we would remark that it is of great advantage to the young cultivator to attend these exhibitions of fruit because he can there learn, without the tedious process of personal experiment, what fruits succeed the best, in his vicinity

Parallel with these tables of specimens were two long tables elegantly spread and bountifully supplied by the good housewives and fair daughters of the members of the Club

Parallel with these again was a row of farm waggons having displayed upon them farming implements in use Those Glenburn farmers work with no mean tools, but have neat and convenient implements and of suitable variety and in sufficient quantity not to be tormented with the necessity of borrowing

The exhibition of stock was large, each member taking to the fair what he had There were about two hundred and fifty head of neat cattle Among them was the farmers working team of the Club which appeared at the county Fair—There were some beautiful specimens of blooded stock, among them the fine Bull presented to one of the members of the Club, Charles B Abbot Esq by Mr Cushing of Watertown Mass There were also several flocks of highly valued sheep and one imported Buck.

But we must omit details relying for them upon the reports of committees

At the glad sound of the tin horn the members of the Club and their women, and invited guests sat down to a sumptuous dinner, after partaking of which, the President introduced to the Club their invited guests Hon Samuel H Blake, president of the County Agricultural Society Thornton McGaw and Hollis Bowman Esqrs, Col Isaac C Haynes Editor of the Bangor Democrat, and the Editor of this paper

Mr Blake addressed the Club in an effective manner upon the importance of their enterprise and the great influence to the farming art likely to result from it

Mr McGaw addressed the Club and had the pleasure of presenting to them form the Hon Richard Sullivan of Boston the following Books which laid upon the table before him

9 Volumes Mass Agricultural Repository
1 do Smith's Botany
1 do Thatcher's American Orchardist
1 do Keyes' Bee Master
2 do Anderson's Essays on Agriculture
1 do Treatise on Sheep
3 do Mass Agricultural Repository (duplicates)
1 do Agricultural Transactions
17 Pamphlets relating to Agriculture
21 Numbers Mass Agricultural Transactions.

He spoke of the importance of a higher state of culture among the agricultural community, and of the interest which is widely felt in the community in all movements like those of this Club.

Other remarks were made after Mr McGaw closed, and the society voted their thanks to Hon Richard Sullivan of Boston, for his generous and highly acceptable present of books made to them, through Thornton McGaw Esq.

After the company had separated [illegible] table—there was a test of the [illegible] [illegible] between horses and oxen and [illegible] [illegible] the latter quite handsomely.

The day was one long to be remembered as full of such pleasant incidents and pleasant memories.

The Lyceum.

The success of the Lyceum for this season, so far as all its opening lecture and the general scale of the talk is is concerned, is established

The fame of the lecturers announced is so widely spread and their reputation is so great that the people are concluded to hear them

The spacious hall over the market was well filled on the delivery of the first lecture of the season by Rev Mr Giles, on Tuesday evening His subject was Patriotism and showed only repeat the us sentiment that it was admirable in matter and manner, in thought and expression, in statement and illustration, in philosophy and morals.

A neighboring correspondent thus writes relative to that portion of the lecture in which the saying

"Our Country right or wrong" was examined

The Rev Mr Giles while speaking in commendable terms of the patriotism, the manliness and the spirit of the Anglo Saxon race, very justly alluded to its besetting sin, the love of territory He said that from the time the race first broke loose from the German forests till the present, the love of territory had marked its course He thought that this race had given rise to many ideas of unscrupulous ambition, and among them, the maxim, "Our Country right or wrong" "If we fight, he said, we fight for what we conceive to be right, from duty, but in no case will men fight for what *they* conceive to be wrong If the expression mean simply that we must run to our country's rescue in time of danger, and to ask it and not stop to scrutinize, it is a just sentiment, but the language is very unfortunate in truth and justice no man can fight wrongfully for his country, or for any thing else But this evidently is not the meaning, and it was not intended to be so construed, but the language in which this expression is embodied gives currency to a very mischievous doctrine It is a sentiment may be appropriated by the evil slaves of ambition and under its cover the most gigantic crimes, may be committed It would acquit Robespierre and Marat

Target Firing.

A volunteer artillery company composed of the present and passed members of the Bangor Artillery turned out yesterday under the command of Col James Smith The ranks were pretty well filled, there being several old veterans of the company present

The Brass Band furnished excellent music and the latter made quite a formidable appearance A collation was provided at Brewer and the affair passed off very pleasantly

Sudden Death.

The Newburyport Herald of Tuesday says—Mr Moses Littlefield, one of the crew of the schooner Margaret Ann, arrived here on Sunday from Cutler after eating his breakfast on board Monday morning, in good health, and just commencing work, suddenly fell on the deck of the vessel and died instantly not breathing after he was lifted up by the persons around him—Mr L resided in the town of Penobscot, Me, where he left a wife and one child He was 27 years of age His body was sent towards home in the Eastern cars, yesterday afternoon

Later from the Rio Grande.

The Mattamoras Flag of the 15th ult, received at New Orleans on the 25th, furnishes a few items of interest

"The battalion of Massachusetts volunteers under command of Lieut Col Abbott passed down yesterday on the McKee Steamers have been despatched to Camargo for the remainder of the brigade, by order of Gen Cushing

There was a rumor in Mattamoras that the United States Military depot at Port Isabel was to be abolished

A part of Col Hay's regiment was removed on the 15th to a point within two miles of Mattamoras.

A battalion of the 3d Regiment of Dragoons, about 400 strong under the command of Col Butler took up the line of March from Mattamoras for Monterey on the 8th inst They will form an escort for Major Randall, paymaster, who awaits them at Camargo with a large amount of funds for the payment of troops, &c

Major George H Crossman, quartermaster, has been ordered to Washington City, and is now en route

A detachment of the 13 Infantry, under Lt Col W there, passed down on the Rough and Ready, yesterday, for the encampment at Palo Alto

Atrocious attempt to Slander Mr. Cave Johnson.

We are sorry to learn from the Hartford Times that some 'obscure' paper in Boston, has started a statement that the Postmaster General has chartered *fourteen mud turtles* at a hundred dollars a year to carry the mails between New York and Boston This, the Times tells us with very proper gravity and with the appropriate indignation, is entirely untrue

It is pleasant to see the promptitude with which our contemporary pronounces the falsity of such a slander, and the alacrity with which he flies to the rescue of official personages from the 'Whig' lies that are so constantly assailing Mr. Polk's administration We do not ourselves believe the turtle story It bears the impress of falsehood upon its face, the whole of Mr Johnson's management of the mails has proved his unwillingness to employ so fast or so certain a conveyance—[New London News

The Greek Slave.

Each limb is perfect, and her brow
Is downcast with a solemn light
Of grief, that seems to shine through tears
Like stars through darkness o the night

And yet, 'tis but a marble shape
O'er which our hearts grow weak and weep
While there are living millions, Slaves,
All grieved and chained, and we asleep!

The Helot still is bowing down
Where Marathon looks on the sea—
More pity hath one marble Slave
Than millions struggling to be free!

O, for the feeling that would burn
When Nature pleads more loud than Art;
The feeling that would rise and spare
The bonds that crush both limb and heart

Not the dull marble, but the life
A typified of woe and pains,
Prompts the quick tears and bids me curse

One Day Later from New Orleans.

Safety of the Ann McKim

The news in the New Orleans papers of the 28th has been communicated to the N Y Express by Telegraph from Petersburg

The steamer Ann McKim had reached New Orleans, and brought upwards of one hundred prisoners who had been released under Col Rusey's man from Tampico

Capt Besancon's company (except Lieut Howkins and eighteen men left as guards at Vera Cruz) are reported to have all been killed near the National Bridge, at which point were twelve hundred guerillas

The informant tells the editors of the Picayune that Capt Vices of the mounted battalion went and examined the graves of Besancon's men—confirming the account first given by a Spaniard passing that way from the Capital.

Fears for the safety of Lieut Henderson's squad had been renewed as he had not joined Major Lally

Lieut Antonio Pedro said to Gen La Vega, had escaped from New Orleans to Havana

Lieutenant John Riley died on board the Ann McKim.

A letter dated Vera Cruz, Sept 16th from an officer in the army, has been received in Philadelphia which states that General Smith was alive and only slightly wounded, but that General Worth had been severely wounded

The Patria, of New Orleans, has a letter from El Jarocha, which states that Paredes was with Gen Rea, on the road between Vera Cruz and Puebla, with six thousand men, waiting for the train which was to leave the former city, under the command of Gen Lane, which was to be escorted by two thousand five hundred men including the troops that were to join at Jalapa The same correspondent mentions a rumor that General Rea had entered Puebla, and that the American garrison there had capitulated without much resistance A very improbable rumor

Art 5 In consideration of the extension of territory as defined by the preceding article by the stipulations which will appear in article No 8, the United States abandon, forever, all claims against the United States of Mexico, on account of the expenses of the war, and besides this agree to pay to the United States of Mexico, $—— [The sum is not specified]

Art 6 In consideration of article No 4 the United States agree to guarantee and pay to the claimants all the obligations which are now due and which may fall due according to the conventions concluded between the two republics, in the city of Mexico, on the 30th of January, 1843 and to provide for the payment of the decisions given in favor of the claimants, given under a convention between the United States and the Mexican Republic, under date of the 11th April, 1839

Art 7 And the United States also agree to assume the payment of the claims of citizens of the United States not previously decided against the Government of the United States of Mexico up to a sum which shall not exceed three millions of dollars, and which shall have originated previous to the 13th May 1846, and which also shall have been acknowledged as just debts by a tribunal of commissioners appointed by the Government of the United States, whose decisions shall be definitive and binding provided that in deciding said tribunal shall be governed by the principles and rules prescribed by articles Nos 1 and 5 of the convention, not ratified but concluded in the city of Mexico on the 20th of Nov [illegible], 1843 and in no case shall a decision be given in favor of any claim unless it is [illegible], by these principles and rules, and the United States by [illegible], and forever [illegible], exonerate the [illegible] of Mexico [illegible] all persons [illegible] [illegible] [illegible]

Art 7. [illegible] [illegible] the [illegible] [illegible] the [illegible] [illegible] of the [illegible] [illegible] of the Sabine.

Art 8. The United States [illegible] to [illegible] [illegible] [illegible] tax or [illegible] whatever, [illegible] [illegible] own country or [illegible] introduced under the r flag, the transportation of goods through the Isthmus of Tehuantepec, for or from the Pacific, by any means of conveyance now in existence, or to be established hereafter, by canals or railroads

Art 9 All the goods introduced during the occupation of country by the United States shall be free from either importation or internal duties, and free from confiscation

Art 10 The article of an its commerce and navigation, concluded in the city of Mexico on the 5th April, 1831, between the two powers, shall be renewed for the period of eight years after the ratification of this treaty, each party having the right after the expiration of that period, to terminate the same by a notice of one year

Art 11 This treaty shall be approved and ratified by the President of the United States of America, with the approbation and the consent of the Senate, and by the consent of the United States of Mexico with the full approbation of the General Congress, and the ratifications will be exchanged in the city of Washington with in the period of —— months from the date on which it may be signed or as soon as possible

The Mexican Commissioners finally submitted the following, as their ultimatum This though materially different from the basis on which they were first instructed to treat, is yet so far short of the conditions proposed by our government, that had not the negotiation been interrupted by the recommencement of hostilities it would not probably have availed to procure peace

Art 1 Is merely an expression of a desire that there may be a firm and lasting peace between the two Republics

Art 2 Stipulates that all prisoners taken by land or sea, shall be given up after the treaty is signed, and that any Mexicans who may be prisoners of the savage tribes of Indians within the limits of the United States, shall be given up by the Government of the United States and returned to their homes

Art 3 All the forts, towns or territory and artillery taken by the forces of the U States shall be returned to Mexico

Art 4 The dividing line between the two republics shall commence in the Gulf of Mexico, three leagues from land, in front, from the Southern mouth of the Bay of Corpus Christi, to run in a straight line through said bay to the mouth of the Rio de la Nueces, to follow thence the course of that river to its source from the source of the river, Nueces a straight line will be traced until it meets the actual frontier of New Mexico in the East Southeast part It will thence follow the actual frontier of New Mexico by the east, north and west of New Mexico, until it meets latitude 37, which will serve as the boundary of the two republics—from the point at which it touches the frontier of New Mexico to the Pacific The government of Mexico agrees not to found any new establishment or colonies in the space of land which lies between the Rio Grande and the Nueces

Art 5 In consideration of this extension of the territorial limits of the United States the government of the said States agree to pay to the United States of Mexico $——, at the city of Mexico, on the day of the exchange of ratifications of this treaty

Arts 6 and 7 By these articles the United States agree to release the Mexican Government from all claims of the Government or citizens of the United States

Art 8 Provides for the settlement of claims in the same manner as is provided in the proposition of Mr Trist

Art 9 Stipulates that the Catholic religion and the property belonging to that persuasion shall be respected in the territory ceded to the United States

Art 10 Citizens of Mexico who may happen to be in the United States to have the privilege of returning to Mexico, without any tax being exacted from them

Art 11 All grants of land made by the Mexican Government previous to this session of territory are to be respected by the Government of the United States

Art 12 The Republic of the United States binds itself solemnly, not to admit henceforward the annexation of any district of territory comprised within the limits assigned by the present treaty to the Mexican Republic This solemn compromise is one of the conditions under which Mexico makes a cession of territory to the Republic of North America

Art 13 All goods now in the ports occupied by the American troops will pay the duties established by the Republic unless they have been prepaid, otherwise they will be confiscated

Art 14 The government of the United States will satisfy justly the claims of Mexican citizens for the damage the American troops have done them

Art 15 Merely relates to the ratification of the treaty

Drowsiness, Swimming o the Head, a roaring noise in the ears headache, palpitation of the heart, &c—Wright's Indian Vegetable Pills are a certain cure for the above unpleasant complaints, because they purge from the body those stagnant and corrupt humors which when floating in the general mass of circulation are the cause of a determination or rush of blood to the head, giddiness loss of memory, dimness of sight drowsiness, pain of the head and many other symptoms of a loaded and corrupt state of the blood

Wright's Indian Vegetable Pills are also one of the very best medicines in the world for the cure of indigestion and therefore will not only remove all the above unpleasant symptoms and entirely prevent any evil consequences resulting from a rush of blood to the head but will most assuredly restore the body to a state of sound health

Beware of Counterfeits of all kinds! Some are coated with sugar others are made to resemble in outward appearance the original medicine The safest course is to purchase from the regular agents only, one or more of whom may be found in every village and town in the State

Alkaloid Xabon,

FOR CLEANSING TEETH.

IN the preparation of this article there is nothing used which will prove in the slightest degree injurious to the structure of the Teeth as its chemical components preclude the possibility of injury to any of the properties entering into their composition From its alkaline principle it corrects the vitiating fluids of the mouth whether arising from acid eructations of the stomach or the decomposition of food collected about the interstices of the teeth and gums, by its removal, preventing the deposite of tartar causing the teeth to assume a clear surface free from the usual stain at the junction of the gums common to the use of the various dentrifices now in vogue, removing from the breath the unpleasant odors usually attending the above diseases

N B It has received the approbation of Drs Bell and Booth of the McLane Asylum, and others who would only give their views in accordance with their belief for the benefit of the public

THE above STOVE stands unrivaled by any other cooking stove in the United States, and certainly has many advantages that no other stove ever had. The Ladies admire the TROJAN for the ease and convenience of cooking by it. The ovens are about the only ones in use which will bake quick and even with hard coal, and for wood there never was their equal. Thousands of these Stoves have been sold in this State during the past season, and the numerous testimonials in their favor show there to be beyond a doubt, the best cooking apparatus in use. American Air-Tight
Cooking Stoves
WERE RETAILED in Boston by Gardiner Chilson, in the short space of six months, and a large number have been sold by myself in this city. This Stove is not equalled by any other stove in the United States, and the unparalleled sales at this way speak in its best ever unparalleled merits.

HOUSE-KEEPERS should be sure and examine this superior Stove, which has won the admiration of several thousand housekeepers the past season. It has more real and useful improvements than all others combined. The fire-brick Oven-top has proved to be of great value in absorbing the steam and causing the bread to rise and bake light, (equal to the house brick oven.) The brick is found to be more durable than the iron top. It also equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Summer arrangement for broiling, boiling, toasting, &c., is complete. The grate clears itself, discharging the ashes into the ash-pit. The flues are large, and so arranged as not to fill up with ashes. It is surprising to see how small an amount of fuel it requires to perform so great a variety of cooking. Its inviting appearance, substantial construction, and general good qualities, have set it forth to be

IMPORTANT MEDICAL NOTICE.
DR. PETERS HAS REMOVED from Endicott street to No. 13 Wilson's Lane, BOSTON, a few steps from Dock Square—where he can be consulted in all cases of Diseases of a delicate nature. Dr. Peters has been in practice in Boston for the last seven years, and is now acknowledged to be the most experienced Physician now advertising for the cure of certain maladies. His success are unlimited—his knowledge of delicate diseases unbounded, his charges no points of expense to relieve those who honor him with their confidence.

In Scrofula, his experienced eye, at once, discovers the state and cause of the evil without first experimenting to ascertain the location of the disease, as do Quacks and Nostrum venders. He perceives the difficulty at once, and applies the right remedy.

In Complaints Affecting of the Bladder, he is always sure of performing a perfect cure—having a perfect knowledge of the organs affected, and the proper medicine to be applied.

In Gonorrhea, a single glance enables him to ascertain the precise state of the disease, and to apply his never-failing remedies to the particular parts, and the complaint will disappear in a short time after the application, never to appear again.

In Syphilis, his medicines stand in the foremost rank of the medical world—removing the disease from the system, no matter of how long standing or difficult it may be.

Also, the following diseases come under the special care of Dr. Peters—viz: Kings Evil—Salt Rheum—Tetter—Cutaneous Affections—Seminal Weakness—Nocturnal Emissions, superinduced by secret bad habits when young, &c. &c.

To Females,
Dr. Peters would say that he has a perfect knowledge of their system, and can warrant them a perfect cure from all complaints peculiar to their sex. The following are a part of the complaints which come under his particular notice—viz: Suppression, Irregularities of the Menses—Whites—Pains in the Back and Sides—Falling of the Womb—Green Sickness, &c. &c.

N. B.—Patients at a distance can consult Dr. Peters by letter, post-paid, describing their complaints, and enclosing a remuneration. Direct "Dr. Peters, 13 Wilson's Lane, Boston, Mass." Medicines can be sent to any part of the United States at the shortest notice.

The most celebrated and INFALLIBLE remedy for Colds Coughs, Asthma or any form of PULMONARY CONSUMPTION, is the HUNGARIAN BALSAM of LIFE, discovered by Dr. Buchan, of London, England, tested for upwards of seven years in Great Britain and on the Continent of Europe and introduced into the United States under the immediate superintendence of the inventor.
The astonishing success of the Hungarian Balsam in the cure of every form of CONSUMPTION, warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community—cases that seek relief in vain from any of the common remedies of the day and have been given up by the most distinguished Physicians as confirmed and INCURABLE. The Hungarian Balsam has cured and will cure the MOST DESPERATE of CASES. It is no quack nostrum but a standard English Medicine, of known and established efficacy.

DEAFNESS CAN BE CURED!
COOPER'S ETHEREAL OIL—A prompt and lasting remedy for DEAFNESS, also for pains and discharge of matter from the Ears
Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former medical discovery.
This valuable Acoustic Medicine is a compound of four different Oils one of which the active and principal ingredient is obtained from the bark of a certain species of Walnut a new and effectual agent in the cure of Deafness.
Persons who have been deaf for 10, 15 and even 20 years, have been permanently cured by using this Oil. In fact, so numerous and so emphatic have been the testimonials in its favor, that the Inventor claims for it the distinction of an Infallible Remedy in all cases, when the Ear is perfect in its formation.

DR. S. O. RICHARDSON'S
CONCENTRATED
Sherry-Wine Bitters.

THE Proprietor of this medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system.
It cannot be denied by those who have become acquainted with the singular virtues of these Bitters, that they possess a pre-eminence over all others now in use for the diseases which they propose to cure.
It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels in youthful, adult and declining life.
The extensive sympathies which subsist between these and every other part of the living body, lay the foundation of Nervous Diseases of all kinds—irregular appetite, Languor Drowsiness Wandering Pains Headache Lowness of Spirits, &c.
And these in their turn give birth to Dyspepsia Palpitation of the Heart Shortness of Breath, Jaundice, Piles, Fever Inflammatory Humors Colds and a host of diseases which embitter life and poison all sources of enjoyment.
The distinguished character of these Bitters is most strongly marked, their operation being more or less powerful, according to the violence of the disease. When used in appropriate quantity in cases of slight derangement of the Stomach and bowels caused by indiscretion or a slight bilious difficulty, and the like, where nature needs assistance to prevent more serious consequences, they will be scarcely felt.
On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified. This accomplished they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor.

MOORE'S ESSENCE OF LIFE at HALL & YOUNG'S

DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!
☞ A Cure for Life Secured. ☜
For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach Bowels, Kidneys and Bladder; Inflammatory and Mercurial Rheumatism; Impurity of Blood; Weakness and Inflammation of the Spine, and for the relief of Married Ladies.
THE VEGETABLE PILE ELECTUARY
Invented by Dr A. Upham, a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.
Mark this: it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—speedy and permanent. It is also a convenient medicine to take and improves the general health in a remarkable manner.
Each box contains twelve doses at 8 1-3 cts per dose. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger—All external applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.
INFLAMMATORY DISEASES
Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others in all diseases of an inflammatory character, with a determination of blood to any particular part or organ. In inflammation and congestion of the Liver and Spleen, Inflammation Soreness and Ulceration of the Stomach Bowels Kidneys and Bladder, inflammatory and mercurial Rheumatism, it is the Best Medicine ever discovered.
IMPURITIES OF THE BLOOD
For all impurities of the Blood arising from the imprudent use of Mercury or other causes; for all diseases of the Skin, and Scrofulous Affections in all cases where the blood is powerfully determined to the head producing dizziness and distress, DR. UPHAM'S ELECTUARY is entirely unrivalled.
TO MARRIED LADIES
Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—The Electuary is perfectly safe for Pregnant Ladies and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases WITHOUT PAIN or IRRITATION but will ensure an easy time, a safe delivery, and a sound and healthy offspring.
CURE FOR LIFE GUARANTIED
The Electuary contains NO MINERAL Medicine, no Aloes Colocynth Gamboge, or other powerful and irritating purgatives. No fear of taking cold while under its influence; no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.
Pamphlets giving valuable information respecting this Medicine may be had of Agents gratis.

GREAT SUCCESS OF UPHAM'S
PILE ELECTUARY.
Portland Me., March 14, 1847
Dr. UPHAM—My dear Sir—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the Bleeding Piles for 10 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs. My eyesight also became affected and in fact I was a misery to myself. I was obliged to give up my business. I had tried all kinds of medicines, had the best advice of the Doctors in this and other places, and spent much money—and twice submitted to painful operations. I had become perfectly tired of life and at the suggestion of my friends I was induced to try a box of your medicine. The first I found took very slight, still I persevered, and purchased a second, and I assure you when I was half through, I found myself getting well, and now I am a well man. My dear Sir, language cannot express the heartfelt thanks that I owe to you for restoring me to health and now being able to support my large family, depending on me.
You can use this letter as you please.
Yours respectfully, SAMUEL CHARLTON.

THE GRAEFENBERG PILLS.
THERE ARE VARIOUS CONSIDERATIONS why that class of medicines denominated "PATENT," should be made the means of inestimable and enduring blessings to the human family. Suppose, for example, that a high order of talent, long and sagacious observation and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL. Why may not this long devotion to this division of medical science be crowned with the success that attends the sacrifice of similar talents and toil in other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus procured will be as perfect an article as can be made by man. Twenty-five years devotion to any one subject will give a man of ability the mastery over it. This labor has been bestowed upon the
Graefenberg Vegetable Pills
and they are presented to the public with claims unparalleled in the whole history of medical science.
It will be seen in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME. The mariner's compass, for instance, was not invented until in the "fulness of time" it was needed. The loadstone always lay at man's foot, but he never knew what a wonderful and unerring guide was treasured in its silent bosom until the Divinely appointed time drew near when distant continents and islands were to be unveiled. Behold it now transferred to the binnacle of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly moving within sight of familiar landmarks.
So with the discovery of the New World, upon whose shores was to arise this Great Nation to a power, a glory a mission far beyond the conception of the wildest fancy. The Old World had reached its highest destiny. The "fulness of time" drew near for the revelation of the New, and behold the immortal Columbus from the forecastle of his drenched and leaky vessel, found it! So with the invention of printing, of steam, of the magnetic telegraph. Each of these had its own "fulness of time," marked, distinct and Providential.
☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. Most beautiful are the illustrations and proofs of this which are to be found in the history of the world. We can trace them from the Mosaic dispensation down to the present hour, all of them teaching us the lesson and giving us the hope that something yet better to heal human maladies is at hand.
That this principle is as true of Medical as of Physical science is clearly shown in the
GRAEFENBERG GAZETTE,
which is furnished gratuitously to all who wish it.—
The
Graefenberg Pills,
are deemed by all who have tested them to be an immense and valuable advance upon all other medical combinations and discoveries hitherto known, and they are announced as
THE GREAT REMEDIAL TRIUMPH
The inventor of these Pills rests his theory upon no scholastic dogma of ordinary medical teachers. Planting himself upon the revelation of the
ALMIGHTY CREATOR,
THAT
"THE BLOOD IS THE LIFE"
he requires that his disciples and his patients make pure the life-current that runs through their veins and arteries, before they can hope for a permanent cure. Rectify the ... give them and so can others, but bright and joyous health must come from a pure blood.
But a most sad thought here comes in! So countless are the impositions which are practiced upon the public by pretenders, and so numerous and boastful are the medicines advertised, that the reader may be slow to believe in this Great Remedy. A word, therefore, on this point.
In the first place READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may now be, that paper will convince you. Thousands have been convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists, clergymen, physicians, civilians. The bare enumeration of the names would fill this page. Let the reader send to the most convenient agency for a copy of the Gazette, which can be had
GRATIS!!
In the second place, TRY THE PILLS. It will cost but a mere trifle and will introduce you to a medicine which you will deem a blessing to the end of your days.
A thousand things press upon the minds of the advertisers which they would rejoice to say to the readers, but the limits of this advertisement will forbid. But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED.

Asthma	Flatulency,
Bilious Complaints,	Fluor Albus, or Whites,
Boils,	Gastric Fever,
Bowels, deficient action in,	Green Sickness,
Breast Pang,	Gripes,
Catarrh	Heartburn,
Constipation,	Headache,
Cough of Pregnancy,	Hysterics,
Costiveness,	Incontinence of Urine,
Diarrhea	Indigestion,
Difficult Breathing,	Inflammation of vital parts,
Dyspepsia	Inflammation of the stomach,
Dyspeptic Consumption,	Jaundice,
Digestion, imperfect	Liver complaints,
Determination of Blood to the head,	Low spirits,
Ear Ache	Menstruation, Suppressed or painful
Erysipelas,	Nervous disorders,
Epilepsy	Neuralgia
Fever—Low Nervous, Intermittent, Remittent.	Rheumatism,
Fever and Ague,	Stomach various diseases,
	Whites

In all bilious or chronic disorders these Pills achieve a most wonderful triumph. HEAR THEY DESERVE ... Add to this the susceptibility of the American constitution to these diseases, they are aptly styled by some

The Pill of the New World

Their wonderful efficacy in these complaints arises from their power to OPEN THE PORES CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS, MAKE THE URINE FLOW HEALTHILY AND CLEAR, AND TO GIVE TONE AND STRENGTH TO THE SYSTEM.
It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary increase and spread of these Pills. But REASONS DO EXIST, which have abundantly satisfied the minds of thousands in this country, and among them some renowned Physicians, Jurists, Clergymen, and private citizens, male and female.
☞ NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented, but a certificate in these days is scarcely worth the paper on which it is printed. A few extracts from the correspondence of the Company, will, however, be given.
FROM INDIANA
"Your enterprise is the enterprise of the day. Its magnitude will astonish its originators. It is destined to effect a complete revolution in the medical world."
FROM A JUSTICE OF THE PEACE IN WESTERN N. YORK
"I have sold a number of boxes to the citizens of this place. They have given entire satisfaction, and they are destined to become the most popular Pill of the day."
FROM TOLEDO OHIO
"Having heard so much, and witnessed two or three cases treated in the mode directed by your Journal, I have thought it important you should have an agent at this place. In my opinion, more good can be done in this bilious climate by your medicines, than by the old modes."
I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success."
FROM A DISTINGUISHED GENTLEMAN OF BOSTON
Gentlemen—I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills. For many years I have suffered much from constipation, which has disarranged my whole system, and I have not known a day's good health for many years past, and being an old man, I despaired of ever again enjoying life, but a friend recommended me to try your Pills which I did, although without any confidence, the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed, and I am satisfied that the merits of your Pills, when better, must be acknowledged by the whole community, and will become the most popular medicine of the day."
FROM JUDGE ———, OF GEORGIA.
SIR,
Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me and if they continue to give me the relief I have already felt, I shall bless it a day you sent them. I need not allude again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures."
FROM AN EPISCOPAL BISHOP
Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills. I was induced to try them, from the philosophical manner in which you have reasoned on the subject, and I must do myself the pleasure, and you the justice to say that I had no conception so speedily an effect could be arrived at. My complaint has been that of the Liver from which I despaired of getting better, but since taking your Pills I find my general health, spirits and appetite so much improved that I hope to find myself able to endure, without bodily suffering, the duties of an arduous Profession. In future I will send to your agent for more Pills when needed. With great consideration and gratitude, I am, &c.
From every section of the entire country similar testimonials are daily received, but our limits forbid further extracts. "ONCE USED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS."

Dr. Townsend's
SARSAPARILLA,
The Most Extraordinary Medicine in the World!
This extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.
The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body. It is one of the very best Spring and Summer medicines ever known, it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 6000 of these were considered incurable. More than
3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy.
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption,
and thousands of cases of diseases of the blood, viz—Ulcers, erysipelas, salt rheum, pimples on the face, &c &c, together with numerous cases of sick headache, pain in the side and chest, spinal affections &c &c.
This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N J, informs me that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventative of disease known. It undoubtedly saved the lives of more than
5,000 CHILDREN THE PAST SEASON,
as it removed the cause of disease, and prepared them for the summer season.
UNITED STATES OFFICER
Capt G W McLean of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.
RAHWAY Jan 2, 1847
A year since I was taken with the influenza, and my whole system left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved and attribute it entirely to the said Sarsaparilla. I have continued taking it and find that I improve every day. I believe that it saved my life, and would not be without it under any consideration. G. W. McLEAN
SCROFULA CURED
This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.
THREE CHILDREN
Dr Townsend—Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine.—They were afflicted very severely with bad sores; have taken some four bottles, it took them away, for which I feel myself under deep obligation. Yours respectfully, ISAAC W CRAIN, 106 Wooster st

TO MOTHERS AND MARRIED LADIES
This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation—which is the case of most medicine taken for female weakness and disease.
GREAT FEMALE MEDICINE
Dr Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption Barrenness, Leucorrhoea or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.
Nothing can be more surprising than its invigorating effects on the human frame. Persons subject to weakness and lassitude from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness.
It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine have been blessed with a healthy offspring.
Dr Townsend: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public. M. D. MOORE

OPINIONS OF PHYSICIANS
Dr Townsend is almost daily receiving orders from physicians in different parts of the Union.
This is to certify that we, the undersigned Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market. Albany, April 1, 1845
The following is from one of the most respectable physicians on Long Island—
Greenport, July 10, 1846
Dr Townsend Dear Sir—It is with satisfaction that I say to you that I have recently witnessed in several cases, the most beneficial results from the use of your Extract of Sarsaparilla. Being engaged in the practice of medicine, I have prescribed it in several cases, and never without benefit. In the removal of diseases arising from a deranged state of the digestive organs, jaundice &c, it far excels anything of the kind ever before offered to the public. You will please send me two dozen, &c &c. Respectfully yours
S C PRESTON, M D
RHEUMATISM.
This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.
☞ Hear Mr Seth Terry, one of the oldest and most respectable lawyers in Hartford Conn. The following is an extract of a letter received from him.
Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage. Please send me two bottles to the care of Dr Seymour. I have conversed with two of our principal physicians and recommended your Sarsaparilla. SETH TERRY
Hartford, March 12, 1845.
PILES! PILES!! PILES!!!
Dr Townsend's Sarsaparilla is no less successful in curing this distressing complaint, than for diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility. Read the following:—
Dr Townsend Dear Sir—The effects of your Sarsaparilla are truly wonderful. For the last six or eight years past, I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint and have despaired of ever finding relief, except in death. I have the pleasure to inform you there is yet a balm in Gilead. I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint. I send you this for publication, and any person you may refer to me, I would be happy to inform of the benefit I have received at your hands.
Yours truly, JOHN HALL, 49 Fulton-st.

CAUTION!
Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c. They generally put it up in the same shaped bottles, and copy our certificates and advertisements, claiming that theirs is far superior and four times stronger than Dr Townsend's, &c., hoping thereby to deceive the public. Some are fictitious names, a few use their own, some of these unprincipled men publish counterfeit certificates, others have induced their brothers and other interested persons to allow the use of their names, to which they put "Inquire," to give them respectability. The public should be on their guard, and look out for counterfeits.

From DANIEL J DESMOND, Esq., Attorney at Law, Consul General of Pontifical States, Vice Consul of Austria, Sardinia, Portugal and Tuscany
"To Mr JULES HAUEL,
Sir—Though I have not the pleasure of a personal acquaintance with you, yet a sense of duty to yourself and the public generally, constrains me to bear my unsolicited testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally, I do positively declare that they are what they profess to be skilfully prepared and compounded. I am convinced of the great worth or merit of the Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap and Rose Tooth Paste—I am fully satisfied of their intrinsic worth and so heartily recommend them to all for the use and purpose they are intended. Nothing can excel the beauty and lustre imparted to the hair by the use of the Eau Lustral Hair Restorative. It invigorates the hair and promotes its growth. The Shaving Cream is unsurpassed and decidedly excellent, being a fine and highly emollient composition—it does not smart or irritate the skin, while the Nymph Soap operates beautifully upon the pores of the skin, and cleanses it from ... The Rose Tooth Paste imparts to the teeth a pearly whiteness, and is well calculated to preserve the teeth and gums from decay. They are in their way invaluable.
"I have seen some of my friends who have used your Vegetable Liquid Hair-Dye; its effect is really a wonder. It dyes the Hair in an indelible manner in a few minutes, and the color of the hair is really beautiful and none will detect the artificial colors, so it seems natural. Yours &c. DANIEL J DESMOND
